The Group CEO's instructions clarify that the duties of the Chairman of the Board should not interfere with the duties of the Group CEO and that the Chairman of the Board may not perform any ongoing management tasks.

Auditors

Auditors are elected by the Annual General Meeting. The auditor shall examine the company's annual report and accounts as well as the management by the Board of Directors and the Group CEO. The auditor shall also examine the group accounts, as well as the relationship inter se of group companies. In accordance with the Articles of Association, Evolution shall have one or two auditors. The auditors shall be appointed for the time period until the end of an annual general meeting held not later than during the fourth financial year after the election. The Group CEO attends, and reports to, all Board meetings, except on those occasions when the Group CEO is evaluated by the Board as well as when the Board meets the company's auditor without management attending. Group Management embodies expertise covering all key areas of the company's business and strategy, including the CEO of Evolution's operating subsidiary Evolution Malta Limited. Evolution Malta Limited has a management team that addresses matters related to the operational activities.

Working instructions for the Group CEO

The Board of Directors has developed and adopted instructions covering the Group CEO's responsibilities and tasks, as well as entitlement to represent the company. Within the framework of applicable laws, the Articles of Association, the Board of Director's formal work plan, the Group CEO's instructions and other instructions issued by the Board, the Group CEO is responsible for overseeing the company's day-to-day operations. The Group CEO is also responsible for ensuring that the Board receives information regularly to be able to monitor the company's financial position, financial planning and development. Prior to each regular Board meeting, the Group CEO shall submit information as

requested by the Board in assessing the company's financial situation, including reports, metrics, proposed business plan and budget, forecasts, interim reports, financial statements and annual reports.

Remuneration to senior executives

The 2022 Annual General Meeting established guidelines for senior executives for the period up until the Annual General Meeting held in 2023. Senior executives refer to the Group CEO and the Group management of Evolution. The guidelines should also apply to remuneration for members of the Board who are employed by the company, and what is stipulated in the guidelines regarding senior executives should when applicable also apply to members of the Board who are employed by the company. For information on the composition of the Group Management, see page 71-72.

The objective of the guidelines is to ensure that the company can attract, motivate and retain senior executives with the expertise and experience required to achieve company's operating goals. The remuneration shall be based on conditions that are market competitive and at the same time aligned with shareholders' interests. Remuneration to the senior executives shall consist of a fixed and, for some senior executives, variable salary. These components shall create a well-balanced remuneration reflecting individual competence, responsibility and performance, both short-term and long-term, as well as the company's overall performance.

Fixed salary

The senior executives' fixed salary shall be competitive and based on each senior executive's individual competences, responsibilities and performance. A review of the fixed salary shall be carried out on an annual basis for each calendar year.

Variable compensation

The senior executives (however not the board member employed by the company) may receive variable remuneration in addition to a fixed salary.

Annual variable remuneration is to be cash based and be based on predetermined and measurable performance criteria for the relevant senior executive aimed at promoting the company's long term value creation. The performance criteria are to be established and documented annually.

Depending on the level of performance achieved, annual variable remuneration can vary from no variable payment up to fifty percent of the annual base salary (however, one senior executive is entitled to variable compensation up to a hundred percent of his annual base salary under his existing employment agreement).

Incentive programmes

The shareholders' meeting shall be able to decide on long-term share and share-price related incentive programmes directed to, among others, the senior executives (however not to board members who are employees of the company). Such incentive programmes are to be designed with the aim of achieving increased alignment between the interests of the participating individual and the company's shareholders and so that a personal holding of shares in the company is promoted.

Other benefits

The company provides other benefits to senior executives in accordance with local practice. Such other benefits can include, for example company health care. Occasionally, housing allowance, paid schooling for underage children or travel allowances could be granted.

Notice of termination and severance pay

The maximum notice period for senior executives during which salary is paid is 12 months. Severance compensation may be paid in an amount not greater than 12 months' fixed salary.

Deviations from guidelines

The Board of Directors may deviate from the above guidelines where a special cause exists in an individual case. In the event the Board of Directors deviates from the guidelines, it shall explain the reason for the deviation at the following Annual General Meeting.

The Extra General Meeting on 28 January 2021 resolved to issue a maximum of 5,000,000 warrants. Each warrant entitles the holder to subscribe for one new share in the company for SEK 1,113.80 during the period from and including 20 March 2024 (however not earlier than the day after the publication of the company's interim report for the period January–December 2023) up to and including the date that falls 30 calendar days thereafter.

The recipients of the warrants are key employees throughout the Group. Employees in Sweden and Georgia have paid the market value for the warrants. Employees in other countries have paid the market value for one warrant, while receiving one without payment for each that had been paid for. For warrants acquired at market value, the price (warrant premium) has been determined using Black & Scholes valuation model, with the valuation being carried out by Svalner Skatt.

2020/2023 programme

Risk management and internal control

Evolution's control system has been developed to ensure accurate, reliable financial reporting and accounting in accordance with applicable laws and rules, accounting standards and other requirements for listed companies. The foundation of the control environment is defined through policies, routines and manuals, and is upheld with the help of the company's organisational structure with clearly defined responsibilities.

Control environment

The Board of Directors bears the ultimate responsibility for an effective system of internal control and risk management being in place. Critical accounting issues and issues related to financial reporting are addressed by the Board and in the Board's Audit Committee. To ensure a well-functioning control environment, the Board of Directors has established a number of policies

relevant to corporate governance and financial reporting. These include the Board's rules of procedure, Group CEO instructions and reporting instructions for financial reporting. The company also has a financial handbook, which includes principles, guidelines and process descriptions for accounting and financial reporting. At the statutory Board meeting following the Annual General Meeting, a formal work plan is established for the Board and instructions for the work of the Group CEO are determined, in which responsibilities and powers are further defined.

The Board has appointed an Audit Committee, tasked with preparing the Board's work with regard to quality in the financial reporting and processes for managing the business risks of the company and the group, as well as monitoring the company's financial reporting and assisting the Board in assuring the effectiveness of the company's internal control, internal audit and risk management.

The CFO regularly reports to the Audit Committee and works together with the company's finance function to develop and improve the internal control with regards to the Group's financial reporting, both proactively with a focus on the internal control environment, and by reviewing the effectiveness of internal control.

Responsibility for the daily work of maintaining the control environment rests primarily with the Group CEO. The Group CEO reports regularly to the company's Board of Directors.

The Board of Directors in its entirety or any one Board Member together with the Chairman of the Board may sign on behalf of the company. In addition, the company's CFO and Director M&A together are entitled to sign on behalf of the company.

In accordance with the Swedish Companies Act, the Group CEO may sign alone on behalf of the company regarding duties which the Group CEO is obliged to carry out pursuant to section 29 of the Swedish Companies Act.

Risk assessment

The Group has established a Risk Management Committee, in which representatives of various relevant parts of the organisation meet quarterly to assess, discuss and mitigate potential risks. The Group has also adopted procedures and established internal risk management control systems, including an annual risk analysis for all business areas within the Group, where the purpose is to identify, evaluate and manage risks threatening the Group's objectives and strategies. The risk analysis is divided into strategic, operational, compliance, legal and financial risks.

To ensure a relevant level of control, each business area has established a number of control activities counteracting the most significant risks identified in the risk analysis. A self-assessment of these control activities is performed annually and reported to the Risk Management Committee, which compiles and evaluates the results and reports to the Audit Committee and the Board of Directors.

Risk assessment directly related to the provision of gaming services

As certain jurisdictions have laws that explicitly consider the offering of, and participation in, gaming services conditional on particular licences or a criminal offence, the Group continuously undertakes precautionary measures, including Know Your Customer (KYC) checks of licensees and requiring, in its agreements, that operators comply with the laws and regulations applicable to them.

These provisions in the agreements constitute a form of legal protection and prevent certain end users from accessing the Group's products and services. The Group's customers (i.e. the casino operators) are responsible for the end users' access to their online gaming platforms at the local level and in accordance with local laws and regulations.

Monitoring

Monitoring of control activities is conducted continuously to ensure that risks have been satisfactorily observed and addressed. This includes tracking of results in relation to budget and plans, analyses and key figures. The Board of Directors continuously evaluates the information provided by the company's management team. The process includes both reconciliation of monthly financial reports against budgets and goals and reporting at Board meetings. Through the Audit Committee, the Board of Directors reviews and assesses the internal control organisation and function. The company's policies and instructions are evaluated and updated annually at a minimum or when needed.

The company's CFO presents the results of internal control work as a standing agenda item at Audit Committee meetings.

The results of the Audit Committee's work in the form of observations, recommendations and proposals for decisions and measures are continuously reported to the Board of Directors.

Information and communication

The company has information and communication channels to promote the accuracy of the financial reporting and to facilitate reporting and feedback from the operations to the Board of Directors and the Group Management, for example by making governing documents such as internal policies, guidelines and instructions regarding the financial reporting available and known to the employees concerned.

The company is subject to the provisions of the EU Market Abuse Regulation No. 596/2014 (MAR). MAR sets out requirements on how inside information is to be published to the market, under which conditions the disclosure may be delayed and in what way the company is obliged to keep a list of persons working for the company and who has access to inside information. The company has assigned a digital and semi-automated tool to ensure that its handling of inside information meets the requirements of MAR and its insider policy. Only authorised persons in the company have access to the tool.

The company's financial reporting complies with Swedish laws and regulations and the local rules in each jurisdiction where operations are conducted. The company's information to shareholders and other stakeholders is provided through the interim reports, press releases and annual report according to the Group's Communication Policy.

Internal audit

The company has no separate review function (internal audit). The Board does not consider there to be special circumstances in operations or other conditions that would warrant such a function.
